

# Vasofix® Braunüle®

The new generation  
with optimized puncture characteristics

50% less puncture force for easy, accurate catheter placement  
with less pain

# Vasofix® Braunüle®

The optimized new generation

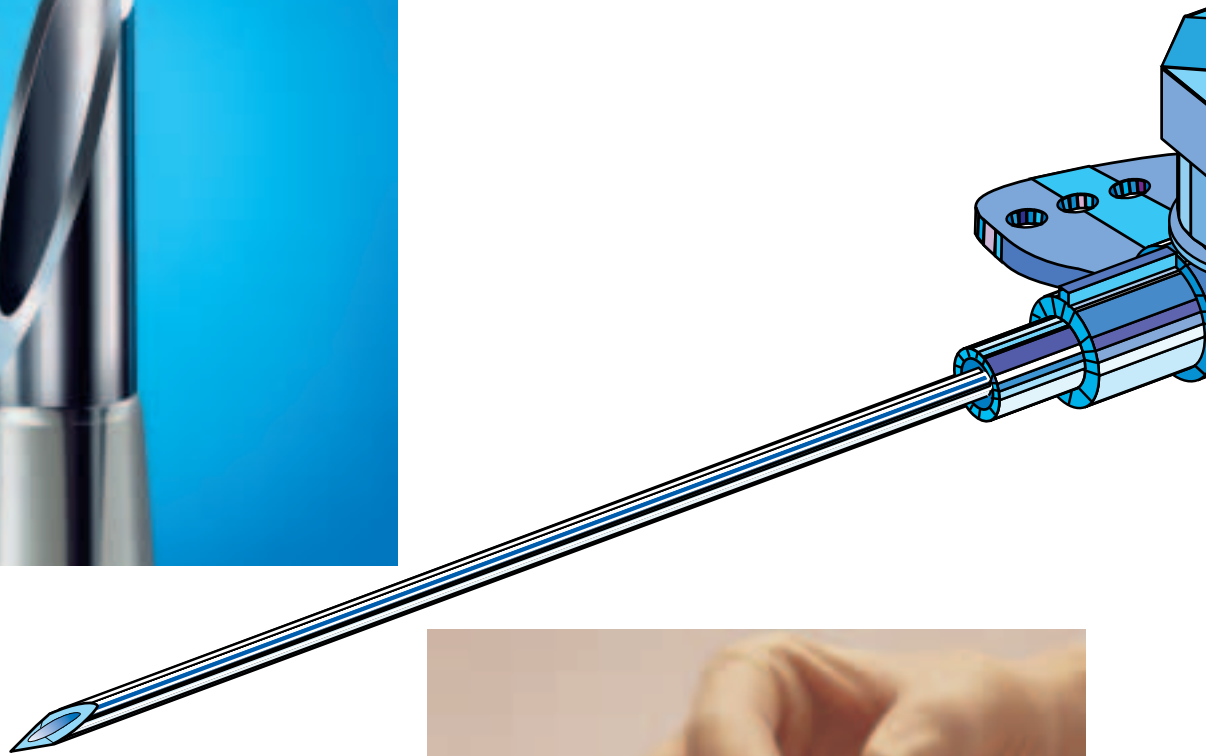

## New:

Optimized version of the tried and trusted Vasofix® Braunüle® based on experience over many years of clinical use and the latest production technology.

## Atraumatic catheter tip

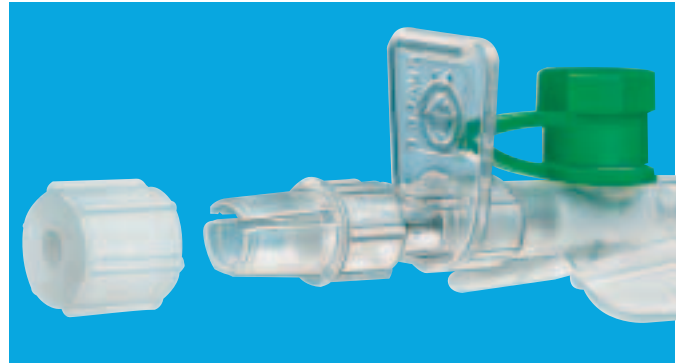

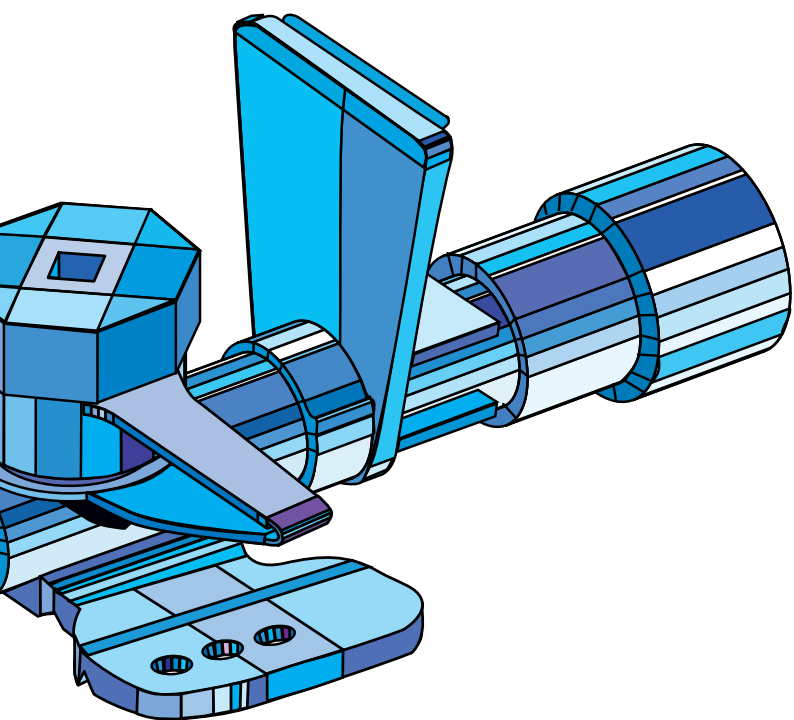

The hardly perceptible transition from the steel needle to the conically tapered catheter tip permits a gentle catheter placement and causes less pain.

## Problem-free venepuncture through:

- needle with backcut bevel
- conically tapered, atraumatic catheter tip
- excellent gliding properties of the catheter material

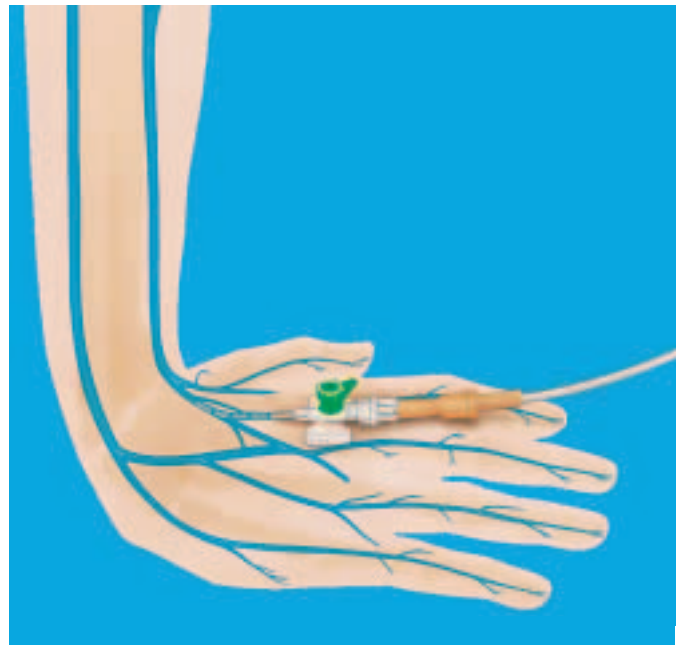

**Advantage:** - 50% reduced puncture forces!

### Integrated closing cone for:

- swift and reliable sealing of the catheter after withdrawal of the metal needle

**Advantage:** - Availability of a closing cone if no I.V. administration set is being connected immediately

### 18 G – short cannula:

- 33 mm long catheter
- white ring on the colour coded green cap of the injection port for easy identification

**Advantage:** - Special suitability for puncture of dorsal hand veins as penetrations of the veins in the wrist joint area and mechanical vein irritations are largely avoided.

### Less packaging waste through:

- new, small packaging
- good compressibility of the soft packaging material

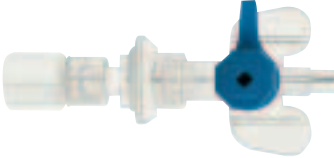

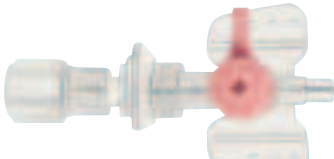

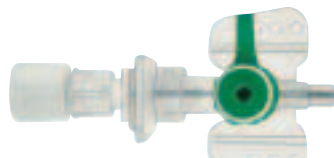

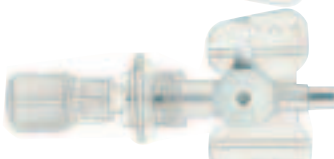

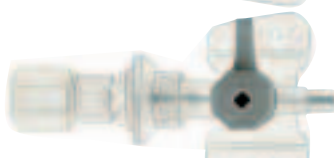

**Advantage:** - Reduction in hospital waste and less impact on the environment!

## Styler

	Size/ Gauge	Size mm	Effective length mm	Flow rate ml/min	Colour code	Code number
	22 G 1"	0,9	25	36	blue	426 8091 B
						0421 5095 
	20 G 1 1/4"	1,1	33	61	rose	426 8113 B
						0421 9104 
	18 G 1 1/4"	1,3	33	103	green with white ring	426 8334 B
						0421 9139  (white protective cap)
	18 G 1 3/4"	1,3	45	96	green	426 8130 B
						0421 9120 
	17 G 1 3/4"	1,5	45	128	white	426 8156 B
						0421 5150 
	16 G 2"	1,7	50	196	grey	426 8172 B
						0421 9171 
	14 G 2"	2,2	50	343	orange	426 8210 B
						0421 9201 

Sales unit 200 pieces

## International size specification

For immediate and safe identification, the new Vasofix® generation, as well as the corresponding styler range, conform to the future ISO<sup>1</sup> standard in terms of cannula sizes and colour coding.

## New packaging:

- small
- space-saving
- easy to identify
